**CRM & CVM Platforms:** Campaign Management Systems, Segmentation Tools, Loyalty Engines

**Others:** Application Development, Customer Segmentation, Campaign Design

CERTIFICATES

**Google IT Support** – Coursera – *Sep 2022*

**Oracle Academy: Java Programming** – *Jan 2017*

**Diploma in Web Development** – Shaw Academy – *Mar 2016*

KEY PROJECTS

MIRSAL – CVM Campaign System

Conceived and designed the **concept and architecture** for an in-house telecom campaign management system. Defined the required **features, structure, and workflows** to automate targeted campaign delivery (SMS/Push) based on segmentation and customer behavior. This system reduced campaign setup time, improved targeting accuracy, and enhanced reporting capabilities for the CVM team.

timely campaign execution.

- Monitored **OPEX budget** and optimized marketing spend ROI.

CVM Specialist Intern – *July 2023 – December 2023*

- Assisted in mapping Omnichannel customer journeys across business segments.
- Used CSAT and VOC tools to analyze customer satisfaction trends.
- Supported segmentation and offer targeting for customer loyalty programs.
- Assisted in building campaign performance reports and dashboards, providing actionable insights to the CVM team.

CORE COMPETENCIES

- BTL Campaign Design & Execution
- Customer Segmentation & Targeting
- Data Analytics & Insights
- Campaign Performance Evaluation
- ARPU & Revenue Growth Tracking
- Pre/Post Campaign Analysis
- Ad-hoc Data Extraction
- Performance Dashboard Development
- Cross-Functional Collaboration
- Operational Efficiency & Process Optimization
