EDUCATION

Bachelor of Science in Computer Science
Middle East College, Muscat *2020 – 2022*

Diploma in Software Technology
Middle East College, Muscat *2015 – 2018*

TECHNICAL SKILLS

- **Programming**
  Python, SQL, Java, HTML, CSS, XML, Rust
- **Databases**
  PostgreSQL, Oracle, MS SQL, Server, MongoDB
- **Business Intelligence & Analytics**
  Power BI, Excel, Google Analytics, Tableau (Basic)
- **Data & Systems Expertise**
  Data Integration, Data Migration, , Analytics & Reporting Automation CRM / CVM Systems
- **Additional Capabilities**
  Dashboard Development, Data Visualization, Insight Generation Process Automation, Requirement Analysis, System Integration
- **Emerging Focus**
  AI-Driven Analytics, Predictive Data Analysis, Telecom Market Intelligence

OBJECTIVE

Data & Systems Analyst with a Computer Science background and hands-on experience in telecommunications data analytics, system integration, and automation. Skilled in SQL, Python, business intelligence tools, and building data-driven platforms that support strategic decision-making. Experienced in transforming complex datasets into actionable insights, identifying performance gaps, and designing efficient solutions. Passionate about advanced analytics, telecom intelligence, and developing smart data systems that enhance operational efficiency and future digital transformation initiatives.

PROFESSIONAL EXPERIENCE

CVM Analyst – Vodafone Oman

May 2024 – Present

• Designed and implemented data-driven campaign management workflows aligned with business and system requirements.
• Built advanced analytical dashboards (ARPU, churn, KPIs) using SQL, Power BI, and Excel to support strategic decision-making.
• Automated segmentation processes and data workflows to improve operational efficiency and ensure data accuracy.
• Conducted deep data analysis to identify trends, patterns, and performance insights across telecom datasets.
• Collaborated with IT and cross-functional teams to integrate campaign systems with enterprise data platforms.
• Improved campaign launch efficiency by 25% through process automation and optimized data extraction.
• Supported data governance initiatives by standardizing reporting structures and implementing validation checks.
• Transformed complex data into actionable insights that supported business and operational improvements.

CERTIFICATES

- **Advanced SQL Certificate (2025)**
- **Lean Six Sigma Green Belt Certification (2024)**
- **Lean Six Sigma Yellow Belt Certification (2024)**
- **Certificate of Completion Business Analytics Foundations: LinkedIn learn (2023)**
- **Certificate of Completion Data Analysis & Visualization: LinkedIn learn (2023)**
- **Certificate of Completion Data Management & Governance: LinkedIn learn (2023)**
- **Certificate of Completion Web Development with Laravel & PHP (2023)**
- **Google IT Support (2022)**
- **Oracle Academy: Java Programming (2017)**
- **Diploma in Web Development :Shaw Academy (2016)**

CORE COMPETENCIES

- Data Analysis & Insight Generation
- Problem Identification & Analytical Thinking
- Data-Driven Decision Support
- Process Automation & Optimization
- Business Intelligence & Dashboard Development
- System Design & Integration
- Stakeholder Collaboration
- Technical Troubleshooting
- Digital Transformation Support

KEY PROJECTS

MIRSAL – CVM Campaign Management System

- Designed the architecture and workflows for an in-house campaign management solution.
- Integrated data pipelines to automate targeted campaign delivery based on segmentation.
- Improved reporting and analysis, reducing manual effort and enhancing decision-making.

Telecom Strategic Intelligence Hub – Market Analytics Platform

• Designed and developed an advanced telecom market analytics dashboard to analyze industry performance and trends using open telecom regulatory data.

• Integrated multiple datasets to monitor key indicators such as mobile subscribers, broadband adoption, market share, and network growth.

• Built interactive visualizations to support strategic insights and executive-level decision-making.

• Applied data analysis techniques to identify trends, performance gaps, and potential market opportunities.

• Demonstrated strong analytical thinking by translating complex data into clear insights and actionable recommendations.

• Focused on problem identification and solution-oriented analysis to support smarter business decisions in the telecom sector.

• Showcased the ability to transform raw data into an intelligence-driven platform for telecom market understanding.
